.....

TRADEMARKS**(3rd ISSUE)**

ANY person desirous of making opposition to, or observations in respect of, the below-cited application, should do so in writing addressed to the undersigned not later than the 25th day of April, 2025.

MARK: META**APPLICATION NUMBER: 17578.22****FILING DATE: 4th January, 2022****APPLICANT: Meta Platforms, Inc.** of 1601 Willow Road, Menlo Park, California 94025, United States of America

INTERNATIONAL CLASS(ES): 9 for downloadable software in the nature of a mobile application; computer hardware; downloadable computer software which facilitates online services for social networking; downloadable computer software for creating, managing and accessing groups within virtual communities; software development tools; downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; downloadable software for use as an application programming interface (API); downloadable software for organizing events, searching for events, calendaring and managing events; downloadable software for creating, editing, downloading, accessing, viewing, streaming, sentiment about, embedding, sharing and providing images, video, audio, audio-visual content, data, and information via the internet; computer software to enable the provision of electronic media via the Internet; downloadable computer software for finding content and content publishers, and for subscribing to content; downloadable software for creating and managing social media profiles and user accounts; photographic equipment; computer software for streaming multimedia entertainment content, audio-visual content, video content via the internet; downloadable computer software for the transmission of images, audio, audio visual and video content and data; downloadable software for modifying photographs, images and audio, video, and audio-visual content; downloadable software for use in taking and editing photographs and recording and editing videos; downloadable software for processing images, graphics, audio, video, and text; downloadable software for collecting, managing, organizing, synchronizing, and the storage of data and information; downloadable e-commerce software to allow users to perform electronic business transactions via a global computer networks; downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; file sharing software; downloadable messaging software; computer search engine software; computer software for use in creating, managing, and disseminating advertising of others; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; downloadable software for creating, sharing, disseminating and posting advertising; downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; downloadable virtual reality software; downloadable augmented reality software; downloadable mixed reality software; virtual reality software for interactive entertainment and virtual reality gaming; augmented reality software for interactive entertainment and augmented reality gaming; augmented reality software for use in mobile device for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; virtuality reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; downloadable software for operating, configuring, and managing virtual reality headsets and controllers; gesture recognition software; object detecting sensors; motion control software; voice recognition software; audio editing software; gesture recognition software; downloadable application software for virtual environments; downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; downloadable software for use in creating and designing virtual reality and augmented reality software; downloadable computer software for use as an application programming interface [API] for developing virtual reality and augmented reality experiences; virtual reality hardware; augmented reality computer hardware; motion tracking sensors for virtual reality and augmented reality technology; virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; virtual and augmented reality software for telecommunications; wearable computer peripheral devices; sensory software; electronic sensors; facial recognition software; voice recognition software; downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; computer software for controlling the operation of audio and video devices; video display software; downloadable software for remotely accessing and viewing text, images and electronic data relating to conversations; application programming interface [API] software for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; downloadable software, namely, an interpretive interface for facilitating interaction between humans and machines; artificial intelligence software, namely, machine learning software, speech recognition software, decision-making software, software for converting natural language into machine-executable commands, and personal digital assistant; downloadable virtual assistant software; downloadable computer software to enable the provision of consumer information via the Internet; downloadable electronic maps; downloadable software to enable searching, determining, and sharing locations; downloadable software for use in searching and identifying employment opportunities; downloadable software for use in identifying and allowing users to contact government representatives; downloadable software for use in providing location-based weather information; downloadable software for use in providing, linking to, or streaming news or current events information; parental control software; computer software; computer operating systems;

downloadable software for enabling electronic devices to share data and communicate with each other; computer peripheral devices; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; digital media streaming devices; headphones; video display units; smart glasses; cameras; batteries; battery cases; battery packs; portable power supplies [rechargeable batteries]; battery chargers; rechargeable external battery packs for use with mobile electronic devices; portable power chargers for mobile electronic devices; wireless charging stands for mobile electronic devices; external chargers for use with computers, tablet computers, mobile devices and mobile telephones; wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; power adapters; electrical adapters, cable, and connectors; bags adapted for mobile phones, cameras, computer and tablet computers; cases for mobile phones, cameras, computer and tablet computers; protective covers and cases for cellphones, laptops and portable media players; holders adapted for mobile phones; carrying cases for mobile phones; wall mountings adapted for television monitors; stands adapted for mobile phones, tablet computers, and laptop; remote controls for mobile electronic devices; audio speakers; audio cable; audio cable connectors; electronic cables; cables for optical signal transmission; power cables and cable connectors; microphones; audio receivers; audio transmitters; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; SIM cards; downloadable computer software for use in customer relationship management (CRM); downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; downloadable software for managing online charitable fundraising services and financial donation services; downloadable software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; communication software and communication servers [computer hardware] for providing access to the internet; telecommunications equipment; radio receivers and transmitters; GPS receivers; downloadable computer software that allows users to make payments and transfer funds; downloadable computer software that enables online users to make payments and transfer funds across multiple websites and mobile applications; software for processing electronic payments to and from others; machine learning software; interfaces software; downloadable electronic publications; downloadable software for use in opinion polling; downloadable software allowing users to post questions with answer options; database synchronization software; data conversion apparatus; personal computer application software for managing document control systems; home automation software; computer software for wireless network communication; computer software for accessing, browsing, and searching online databases; downloadable software for use in internet of things [IoT]; computer application software; downloadable software for processing, reproducing, recording, organizing, downloading and transmitting data files; downloadable software in the nature of a mobile application; software for television entertainment exploration guides; computer software for searching, downloading, receiving, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; downloadable communication software for providing access to the internet; downloadable software for converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents into electronic format and wearable digital communication electronic devices for sending and receiving of text, data, audio, image, and video files; speakers and microphones sold as component parts of computers, mobile and wearable digital electronic devices; electronic notepads; electronic personal organizers; portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; wearable computer hardware; wearable digital electronic communication devices comprised primarily of software for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; downloadable computer software for accessing, browsing and searching online databases; downloadable computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; downloadable software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; apparatus for recording, transmission or reproduction of sound or images; apparatus for transmission of communication; apparatus for data storage; downloadable computer software for blockchain technology; downloadable cryptographic keys for receiving and spending digital currency, cryptocurrency and virtual currency; digital currency wallet software; downloadable computer software for use as a cryptocurrency wallet; cryptocurrency hardware wallet; downloadable computer software for use as a digital wallet; computer programs; downloadable computer application software for mobile phones and wearable computer peripherals for electronic storage of data; downloadable computer software for digital currency payment and exchange transactions; downloadable computer software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for electronic wallet services; downloadable e-wallets; software for use with distributed ledger technology; downloadable software which enables users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer software relating to the handling of financial transactions; authentication software enabling parties to access financial transaction; downloadable software for use in maintaining ledgers for financial transactions; utility security and cryptography software; downloadable computer software for encryption and enabling secure transmission of digital information over the internet; downloadable software to enable users to calculate parameters related to financial transactions; downloadable software for electronic funds transfer; electronic currency converters; downloadable software for the collection and distribution of data; downloadable computer software for facilitating payment transactions by electronic means; computer

programs for connecting remotely to computers or computer networks; downloadable computer software for creating searchable databases of information and data; downloadable computer software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions using blockchain technology; software for smart contracts; computer software for managing payment transactions by electronic means; downloadable computer software for use as a digital wallet; downloadable software for use in creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; downloadable software for creating, selling and managing blockchain-based tokens or appcoins; computer software for use in an electronic financial platform; downloadable software for processing electronic payments and for transferring funds to and from others; platform software for blockchain technology; downloadable software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for use in creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software for use in managing crypto currency and digital currency accounts; downloadable software for use in making payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; downloadable software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable computer software for use as an application programming interface [API] for the development, testing, and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; downloadable computer software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; downloadable software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; downloadable computer software for use as an application program interface [API] software for use in computer hardware device identification; downloadable computer software for use in authenticating user access to computers and computer networks; downloadable software for use in facilitating secure transactions; downloadable software for use in accessing, reading, tracking, and using blockchain technology; downloadable software for managing identity information, access rights to information resources and applications and authentication functionality; downloadable software for use in network identification verification, authentication and management services for security purposes; downloadable authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; security tokens [encryption devices]; security token software; downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; computer software for use as an application programming interface [API] for developing and creating virtual reality, augmented reality and mixed reality experiences; computer software for use as an application programming interface [API] for facilitating online services for social networking and for data retrieval, upload, download, access and management; downloadable application programming interface [API] software for use in building software applications; augmented reality glasses; augmented reality headsets; cables, namely, electronic cables and connection cables; mobile phone cases; mobile phone straps; carrying cases for mobile phones; computer application software for use in engaging in exercise for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; computer hardware for remotely accessing and transmitting data and video; computer hardware for use in measuring heart rhythm; computer hardware for use in taking electrocardiograms; computer operating system software; computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; peripherals adapted for use with computers for displaying data and video; computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; computer peripherals for mobile devices, namely, mobile phones, digital tablets, laptops [computer], smartwatches, monitors, electrical sensors, and electronic displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, distance, altitude, speed, navigational, weather information, temperature, heart rate, and biometric data; computer peripherals for remotely accessing and transmitting data; computer software and computer application software for mobile phones and personal digital devices for providing fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software and computer application software for mobile phones and personal digital devices to monitor, track, and compare sport activity and fitness level; computer software and computer application software for mobile phones and personal digital devices for evaluating a user's fitness level and athleticism, and provides fitness scores; computer software and computer application software for mobile phones and personal digital devices for providing tips, coaching, and personalized workouts, to improve the user's fitness score; computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software and computer application software for mobile phones and personal digital

devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; computer software and computer application software for detecting user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software and firmware, namely, operating system programs, and database synchronization software; computer software development tools; computer software for accessing, browsing and searching online databases; computer software for accessing, browsing and searching online databases; computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer, the internet and communication networks; computer software for creating, managing, and interacting with an online community; computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; computer software for processing images, graphics, audio, video, and text; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer, the internet and communication networks; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; computer software for social networking and interacting with online communities; computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for the redirection of messages, internet email, and other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; computer software for tracking and managing information regarding health, fitness, and wellness programs; computer software for use as an application programming interface [API]; computer software for use in creating, managing, measuring, and disseminating advertising of others; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software for wireless content, data and information delivery; computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, distance, speed, navigational, temperature, heart rate, and biometric data; computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software that monitor, track, and compare sport activity and fitness level; computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software to enable accessing, displaying, editing, linking, sharing and providing electronic media and information via the internet and communications networks; computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; computer software platforms for social networking; software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; connection cables; head-mounted video displays, namely, virtual reality headsets; associated electronics, namely, connection cables, electrical adaptors, system support software, and firmware for displaying video games, electronic media and images; computer application software for mobile phones, smartphones, computers, tablets, smart glasses; wearable digital electronic devices, namely, glasses, goggles, headsets, and head-mounted displays; near eye display systems, communications networks, and computer systems for communicating purposes between networks; downloadable computer software application for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; downloadable computer software application for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; downloadable computer software application for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; electric cables; electrical adaptors; electronic monitoring instruments, other than for

medical use; electronic navigational and positioning instruments and apparatus; gesture recognition software; glasses with wireless communication function; global positioning system (GPS) apparatus; virtual reality, augmented reality and mixed reality goggles; software for generating virtual images; video display cards; interactive entertainment software; electronic display interfaces; location-aware computer software, downloadable computer software and mobile software application for searching, determining and sharing locations; loudspeakers; micro displays, namely, head mounted video displays and near eye video displays; mixed reality glasses; mixed reality headsets; mixed reality software; virtual and augmented reality software for interactive entertainment; mixed reality software for navigating a mixed reality environment; mixed reality software for use in object tracking, motion control and content visualization; mixed reality software for use in operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; mobile application software for creating personalized fitness training programs; motion recognizing sensors; wearable digital electronic communication devices; near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; near eye display systems comprised of gyro sensors using GPS functions, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer software specifically adapted for goggles; near eye display systems comprising computer software for the generation and display of standard reality, augmented reality, and mixed reality content; near eye displays; computer networking and data communications equipment, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; peripherals for mobile devices, namely, pedometers and altimeters; virtual assistant software; personal digital assistants; wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; video display screens; wearable digital electronic communication devices for recording, transmission, and playback of sound and images; remote control apparatus for wearable computer hardware and smartwatches; sensors for scientific use to be worn by a human to gather human biometric data; computer software for use on handheld mobile digital electronic devices and other consumer electronics; smart glasses; smart glasses with wired and wireless audio capability; smartwatches; social software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head mounted display screen devices; software and firm ware for enabling electronic devices to share data and communicate with each other; electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for converting natural language into machine-executable commands; software for creating and managing social media profiles and user accounts; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for generating images to be displayed in near-eye display system; software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for searching, viewing and purchasing products and services; software for organizing, searching for and managing events; software for planning activities with other users, making recommendations; software for processing images, graphics, audio, video, and text; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; software for smart phones and other computer systems to receive data from near-eye display systems; computer software platforms for social networking; computer application software for streaming multimedia entertainment content; software for the collection, organizing, transmission, and storage of data and information; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; computer software for use as an application programming interface [API]; software for use in creating and designing virtual reality, augmented reality and mixed reality software; computer software for wireless content, data and information delivery; downloadable software in the nature of a mobile application; software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; software; speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices; virtual reality glasses; virtual reality headsets; virtual reality software; virtual reality software for interactive entertainment; virtual reality software for navigating a virtual reality environment; virtual reality software for object tracking, motion control and content visualization; virtual reality software for operating virtual reality headsets; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; virtual, augmented, and mixed reality software for use in enabling computers, videogame consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; wearable activity trackers; wearable computer peripherals; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; wireless computer peripherals; **28** for virtual reality headsets adapted for use in playing video games to enable virtual reality experiences; electronic and interactive multimedia game consoles; video game interactive remote control units; Hand-held consoles for playing video games; game controllers for computer games; audio and visual headsets for use in playing video games; hand-held units for playing electronic, computer, interactive, and

video games; computer game consoles for use with an external display screen or monitor; apparatus for electronic games other than those adapted for use with an external display screen or monitor; apparatus for electronic games adapted for use with an external display screen or monitor; bags specially adapted for handheld video games and video game consoles; computer and video game joysticks; computer gaming consoles for recreational game playing; fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; game controllers in the nature of keyboards for computer games; games adapted for use with television receivers; gaming headsets adapted for use in playing video games; hand held joy stick units for playing video games; handheld game consoles; hand-held electronic games adapted for use with television receivers only; hand-held games with liquid crystal displays; hand-held units for playing electronic games for use with external display screen or monitor; home video game machines; LCD machines; protective carrying cases specially adapted for handheld video games and video game consoles; standalone video game machines; stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; tabletop units for playing electronic games other than in conjunction with a television or computer; controllers for game consoles; arcade video game machines; video game consoles; toys, games and playthings; gymnastic and sporting articles; decorations for Christmas trees; body-building apparatus; body-training apparatus; sports equipment; apparatus for games; exercise machines; **35** for advertising via electronic media and specifically the internet; dissemination of advertising for others via a global computer network; business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance for others; advertising services, namely, advertising campaign management, targeting, implementation and optimization services; preparation and realization of media and advertising plans and concepts; design of advertising materials for others; advertising services, namely, brand evaluation and brand positioning services for others, and advertising procurement services for others; Ad serving, namely, placing advertisements on websites for others using specialized computer software; advertising, marketing and promoting the goods and services of others by means of providing photo and video equipment at special events; organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; advertising services, namely, providing classified advertising space via the internet and other communication networks; compiling of data into online computer databases and online searchable databases in the field of classified advertisements; promoting the goods and services of others via computer and communication networks; promoting the goods and services of others by means of distributing video advertising via the internet and other communications networks; providing promotional events for others via live streaming video; consulting services in the fields of development of advertising concepts; business assistance and consulting services; business consultation and management regarding marketing activities and launching of new products; brand strategy services; business consultation in the field of telecommunications expense management; business management consulting services to enable business entities, non-governmental organizations and non-profit organizations to develop, organize, and administer programs to offer greater access to global communications networks; business networking services; employment consultancy and recruiting services; promoting sales for others by facilitating pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; advertising services for promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; providing contest and incentive award programs for marketing and advertising purposes to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; business consultancy services for professionals and businesses in the field of mobile software application development; organizing, promoting, arranging and conducting special events, exhibitions, and tradeshow for commercial, promotional or advertising purposes; organizing and conducting special events, exhibitions, expositions and conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; online retail store services featuring virtual reality and augmented reality hardware and software; online retail store services featuring virtual reality content and digital media namely, pre-recorded music, video, images, text, audiovisual works and virtual and augmented reality game software; providing online marketplaces for sellers of goods and services; business intermediary and advisory services in the field of selling products and rendering services for third parties through electronic communications network; providing a website for connecting sellers with buyers; providing telephone directory information via global communications networks; customer relationship management; providing commercial information, namely, user comments concerning business organizations, service providers, and other resources; preparation of advertising campaign and consumer research and consumer response analysis; market research services; provision of marketing information services; business information management, namely, reporting of business information and business analytics in the fields of advertising and marketing; business management; business administration; office functions; compiling online business directories featuring the businesses, products and services of others; promoting public awareness for issues involving access to the internet for the global population; association services, namely, promoting the adoption, acceptance and development of open source computer technologies; organizing business networking events in the field of open source software; promoting voluntary common industry standards for software development and execution; business investigations in the field of social media; marketing, advertising and promotion services; advertising services; market intelligence services; provision of an online marketplace for buyers and sellers of goods and services; arranging and conducting special events for business purposes; blockchain as a service, namely, business advice and information in the field of blockchain technology; advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; advertising services, namely, targeting and optimization of online advertising; promotion of special events; association services that promote the interests of professionals and businesses in the field of mobile software application development; brand strategy services; business and advertising services, namely, media buying for others; procurement services for others [purchasing goods and service for other businesses]; charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; consulting services in the fields of advertising and marketing, namely, customizing advertising and marketing efforts of others; dissemination of advertising for others via the internet and online communication networks; facilitating the exchange and sale of services and products of third parties via computer and communication networks; marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; online advertising and promoting the goods and services of others via the internet;

online retail store services featuring virtual reality, mixed reality and augmented reality headsets, games, content and digital media; online retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods; organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; promoting the goods and services of others via the internet and communication networks; providing online business directories featuring the businesses, products and services of others; providing online facilities for connecting sellers with buyers; retail and online retail store services relating to software, electronic devices and footwear incorporating sensors that allow consumers to engage in virtual athletic competitions and individual and group fitness classes; retail and online retail store services relating to fitness coaching, virtual athletic competitions, and individual and group fitness classes; retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods; **36** for financial transaction services, namely, providing secure electronic commercial transactions and payment options; electronic payment services involving electronic processing and subsequent transmission of bill payment data; process of payment transaction via the internet; electronic funds transfer services; electronic credit card, debit card, and gift card transaction processing services; financial services; payment processing services; financial transaction services; arranging fundraising and the distribution of fundraising donations; charitable fundraising services, namely, coordination of the procurement and distribution of monetary donations from individuals and companies to third-parties; providing bill payment services via electronic mobile applications; financial exchange; virtual currency exchange; financial affairs, namely, financial management, financial planning, financial forecasting, financial portfolio management and financial analysis and consultation; providing financial information by electronic means; brokerage services; currency dealing services; financial services in relation to digital currencies; financial trading of cryptocurrency; virtual currency services; e-wallet payment services; electronic wallet services (payment services); bill payment services provided via an electronic wallet; electronic banking services via a global computer network [internet banking]; currency trading; digital currency, virtual currency, cryptocurrency, and other forms of virtual currency in the nature of digital and blockchain asset, digitized asset, digital token, crypto token and utility token trading services; digital currency, virtual currency, cryptocurrency, and other forms of virtual currency in the nature of digital and blockchain asset, digitized asset, digital token, crypto token and utility token processing services for others; electronic cash transactions; news reporting services in the field of financial news; issuance of tokens of value; management of digital currency, virtual currency, cryptocurrency, and other forms of virtual currency in the nature of digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial services, namely, providing a financial exchange for the trading of digital currency, virtual currency, cryptocurrency and other forms of virtual currency in the nature of digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; cryptocurrency trading services; cryptocurrency exchange services; cryptocurrency payment processing; electronic payment services; processing electronic wallet payments; currency transfer services; financial services, namely, providing electronic transfer of digital currency, virtual currency, cryptocurrency, and other forms of virtual currency in the nature of digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial consultation in the field of digital currency, virtual currency, cryptocurrency, and other forms of virtual currency in the nature of digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing electronic processing and tracking of electronic funds transfers; currency exchange services; investment management services; custodian services for financial institutions and funds; monetary exchange; clearing and reconciling financial transactions via a global computer network; financial information services; electronic financial trading services; providing on-demand and real-time financial information about digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing information in the fields of financial investment and finance over computer networks and global communication network; online trading of financial instruments; electronic commerce payment services; electronic processing and transmission of bill payment data for users of internet and communications networks; merchant services, namely, payment transaction processing services; payment processing services, namely, providing virtual currency transfer services; pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; **38** for telecommunications services, namely, electronic transmission of electronic media, data, messages, graphics, images, photos, videos, audio visual content and files; telecommunication services, namely, data transmission and data communication services via telecommunication networks; telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; peer-to-peer photo, video, and data sharing services, namely, electronic transmission of digital photo files, videos, and audio visual content among internet users; telecommunication services; providing access to computer, electronic and online computer databases; providing access to computer databases in the fields of social networking and social introduction and dating; providing online forums for communication on topics of general interest; providing online chat rooms, instant messaging services, and electronic bulletin boards for transmission of messages amongst users; chatroom services for social networking; providing online communications links which transfer website users to other local and global webpages; providing access to third party websites or to other electronic third party webpages on the internet content via a universal login; audio, text and video broadcasting services provided via the internet or other communications network; telephony communication services; mobile phone communication services; video conferencing services; providing facilities and equipment for video conferencing; audio and video teleconferencing services; streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; telecommunications services, namely, electronic transmission of virtual reality audio visual content and data; providing technical support services regarding the usage of communications equipment; web messaging services; encrypted electronic transmission and delivery of recovered data; provision of access to telecommunication networks and the internet; providing information about telecommunication; consulting services in the field of telecommunications; internet service provider services; internet broadcasting services; telecommunications services, namely, providing internet access via broadband optical and wireless networks; streaming and live streaming of audio, visual and audiovisual gaming content via a global computer network; providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications

networks; peer-to-peer photo and data sharing services, namely, sharing graphics and audio content among internet users; chat rooms, and electronic bulletin boards for registered users for transmission of messages and sharing information regarding health and fitness, sport activities, and social networking via an online website and other computer and electronic communication networks; providing an online forum for registered users for sharing information regarding fitness, sport activities, fitness goals, fitness training and coaching, and social networking via an online website and other computer and electronic communication networks; providing an on-line forum, chat rooms, and electronic bulletin boards for registered users for transmission of messages and sharing information regarding nutrition, personal activities, health and fitness, classifieds, and social networking; providing electronic bulletin boards for transmission of messages among users in the field of general interest; providing online forums for communication, namely, transmission on topics of general interest; streaming of audio and video material related to athletic activities on the internet and other computer and electronic communication networks; teleconferencing; voice over internet protocol (VOIP) services.

STATEMENT OF USE: The applicant claims that it has a bona fide intention to use the mark.

PRIORITY: Priority Claim is on the basis of an application filed on the 8th July, 2021 under number 83739 in Jamaica.

AGENT: Morgan & Morgan Trust Corp. Belize Ltd. of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize

MARK:

CFE(9): 26.13.25

APPLICATION NUMBER: 17831.22

FILING DATE: 30th March, 2022

APPLICANT: Meta Platforms, Inc. of 1601 Willow Road, Menlo Park, California 94025, United States of America

INTERNATIONAL CLASS(ES): 9 for downloadable software in the nature of a mobile application; computer hardware; downloadable computer software which facilitates online services for social networking; downloadable computer software for creating, managing and accessing groups within virtual communities; software development tools; downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; downloadable software for use as an application programming interface (API); downloadable software for organizing events, searching for events, calendaring and managing events; downloadable software for creating, editing, downloading, accessing, viewing, streaming, sentiment about, embedding, sharing and providing images, video, audio, audio-visual content, data, and information via the internet; computer software to enable the provision of electronic media via the Internet; downloadable computer software for finding content and content publishers, and for subscribing to content; downloadable software for creating and managing social media profiles and user accounts; photographic equipment; computer software for streaming multimedia entertainment content, audio-visual content, video content via the internet; downloadable computer software for the transmission of images, audio, audio visual and video content and data; downloadable software for modifying photographs, images and audio, video, and audio-visual content; downloadable software for use in taking and editing photographs and recording and editing videos; downloadable software for processing images, graphics, audio, video, and text; downloadable software for collecting, managing, organizing, synchronizing, and the storage of data and information; downloadable e-commerce software to allow users to perform electronic business transactions via a global computer networks; downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; file sharing software; downloadable messaging software; computer search engine software; computer software for use in creating, managing, and disseminating advertising of others; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; downloadable software for creating, sharing, disseminating and posting advertising; downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; downloadable virtual reality software; downloadable augmented reality software; downloadable mixed reality software; virtual reality software for interactive entertainment and virtual reality gaming; augmented reality software for interactive entertainment and augmented reality gaming; augmented reality software for use in mobile device for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; virtuality reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; downloadable software for operating, configuring, and managing virtual reality headsets and controllers; gesture recognition software; object detecting sensors; motion control software; voice recognition software; audio editing software; gesture recognition software; downloadable application software for virtual environments; downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; downloadable software for use in creating and designing virtual reality and augmented reality software; downloadable computer software for use as an application programming interface [API] for developing virtual reality and augmented reality experiences; virtual reality hardware; augmented reality computer hardware; motion tracking sensors for virtual reality and augmented reality technology; virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; virtual and augmented reality software for telecommunications; wearable computer peripheral devices; sensory software; electronic sensors; facial recognition software; voice recognition software; downloadable electronic game software in the nature of video

games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; computer software for controlling the operation of audio and video devices; video display software; downloadable software for remotely accessing and viewing text, images and electronic data relating to conversations; application programming interface [API] software for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; downloadable software, namely, an interpretive interface for facilitating interaction between humans and machines; artificial intelligence software, namely, machine learning software, speech recognition software, decision-making software, software for converting natural language into machine-executable commands, and personal digital assistant; downloadable virtual assistant software; downloadable computer software to enable the provision of consumer information via the Internet; downloadable electronic maps; downloadable software to enable searching, determining, and sharing locations; downloadable software for use in searching and identifying employment opportunities; downloadable software for use in identifying and allowing users to contact government representatives; downloadable software for use in providing location-based weather information; downloadable software for use in providing, linking to, or streaming news or current events information; parental control software; computer software; computer operating systems; downloadable software for enabling electronic devices to share data and communicate with each other; computer peripheral devices; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; digital media streaming devices; headphones; video display units; smart glasses; cameras; batteries; battery cases; battery packs; portable power supplies [rechargeable batteries]; battery chargers; rechargeable external battery packs for use with mobile electronic devices; portable power chargers for mobile electronic devices; wireless charging stands for mobile electronic devices; external chargers for use with computers, tablet computers, mobile devices and mobile telephones; wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; power adapters; electrical adapters, cable, and connectors; bags adapted for mobile phones, cameras, computer and tablet computers; cases for mobile phones, cameras, computer and tablet computers; protective covers and cases for cellphones, laptops and portable media players; holders adapted for mobile phones; carrying cases for mobile phones; wall mountings adapted for television monitors; stands adapted for mobile phones, tablet computers, and laptop; remote controls for mobile electronic devices; audio speakers; audio cable; audio cable connectors; electronic cables; cables for optical signal transmission; power cables and cable connectors; microphones; audio receivers; audio transmitters; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; SIM cards; downloadable computer software for use in customer relationship management (CRM); downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; downloadable software for managing online charitable fundraising services and financial donation services; downloadable software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; communication software and communication servers [computer hardware] for providing access to the internet; telecommunications equipment; radio receivers and transmitters; GPS receivers; downloadable computer software that allows users to make payments and transfer funds; downloadable computer software that enables online users to make payments and transfer funds across multiple websites and mobile applications; software for processing electronic payments to and from others; machine learning software; interfaces software; downloadable electronic publications; downloadable software for use in opinion polling; downloadable software allowing users to post questions with answer options; database synchronization software; data conversion apparatus; personal computer application software for managing document control systems; home automation software; computer software for wireless network communication; computer software for accessing, browsing, and searching online databases; downloadable software for use in internet of things [IoT]; computer application software; downloadable software for processing, reproducing, recording, organizing, downloading and transmitting data files; downloadable software in the nature of a mobile application; software for television entertainment exploration guides; computer software for searching, downloading, receiving, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; downloadable communication software for providing access to the internet; downloadable software for converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents into electronic format and wearable digital communication electronic devices for sending and receiving of text, data, audio, image, and video files; speakers and microphones sold as component parts of computers, mobile and wearable digital electronic devices; electronic notepads; electronic personal organizers; portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; wearable computer hardware; wearable digital electronic communication devices comprised primarily of software for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; downloadable computer software for accessing, browsing and searching online databases; downloadable computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; downloadable software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; apparatus for recording, transmission or reproduction of sound or images; apparatus for transmission of communication; apparatus for data storage; downloadable computer software for blockchain technology; downloadable cryptographic keys for receiving and spending digital currency, cryptocurrency and virtual currency; digital currency wallet software; downloadable computer software for use as a cryptocurrency wallet; cryptocurrency hardware wallet; downloadable computer software for use as a digital wallet; computer programs; downloadable computer application software for mobile phones and wearable computer peripherals for electronic storage of data; downloadable computer software for digital currency payment and exchange transactions; downloadable computer software for use in managing portfolios of digital

currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for electronic wallet services; downloadable e-wallets; software for use with distributed ledger technology; downloadable software which enables users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer software relating to the handling of financial transactions; authentication software enabling parties to access financial transaction; downloadable software for use in maintaining ledgers for financial transactions; utility security and cryptography software; downloadable computer software for encryption and enabling secure transmission of digital information over the internet; downloadable software to enable users to calculate parameters related to financial transactions; downloadable software for electronic funds transfer; electronic currency converters; downloadable software for the collection and distribution of data; downloadable computer software for facilitating payment transactions by electronic means; computer programs for connecting remotely to computers or computer networks; downloadable computer software for creating searchable databases of information and data; downloadable computer software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions using blockchain technology; software for smart contracts; computer software for managing payment transactions by electronic means; downloadable computer software for use as a digital wallet; downloadable software for use in creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; downloadable software for creating, selling and managing blockchain-based tokens or appcoins; computer software for use in an electronic financial platform; downloadable software for processing electronic payments and for transferring funds to and from others; platform software for blockchain technology; downloadable software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for use in creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software for use in managing crypto currency and digital currency accounts; downloadable software for use in making payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; downloadable software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable computer software for use as an application programming interface [API] for the development, testing, and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; downloadable computer software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; downloadable software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; downloadable computer software for use as an application program interface [API] software for use in computer hardware device identification; downloadable computer software for use in authenticating user access to computers and computer networks; downloadable software for use in facilitating secure transactions; downloadable software for use in accessing, reading, tracking, and using blockchain technology; downloadable software for managing identity information, access rights to information resources and applications and authentication functionality; downloadable software for use in network identification verification, authentication and management services for security purposes; downloadable authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; security tokens [encryption devices]; security token software; downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; computer software for use as an application programming interface [API] for developing and creating virtual reality, augmented reality and mixed reality experiences; computer software for use as an application programming interface [API] for facilitating online services for social networking and for data retrieval, upload, download, access and management; downloadable application programming interface [API] software for use in building software applications; augmented reality glasses; augmented reality headsets; cables, namely, electronic cables and connection cables; mobile phone cases; mobile phone straps; carrying cases for mobile phones; computer application software for use in engaging in exercise for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; computer hardware for remotely accessing and transmitting data and video; computer hardware for use in measuring heart rhythm; computer hardware for use in taking electrocardiograms; computer operating system software; computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; peripherals adapted for use with computers for displaying data and video; computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; computer peripherals for mobile devices, namely, mobile phones, digital tablets, laptops [computer], smartwatches, monitors, electrical sensors, and electronic displays for sensing, monitoring, recording, displaying, measuring, and

transmitting global positioning, distance, altitude, speed, navigational, weather information, temperature, heart rate, and biometric data; computer peripherals for remotely accessing and transmitting data; computer software and computer application software for mobile phones and personal digital devices for providing fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software and computer application software for mobile phones and personal digital devices to monitor, track, and compare sport activity and fitness level; computer software and computer application software for mobile phones and personal digital devices for evaluating a user's fitness level and athleticism, and provides fitness scores; computer software and computer application software for mobile phones and personal digital devices for providing tips, coaching, and personalized workouts, to improve the user's fitness score; computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; computer software and computer application software for detecting user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software and firmware, namely, operating system programs, and database synchronization software; computer software development tools; computer software for accessing, browsing and searching online databases; computer software for accessing, browsing and searching online databases; computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer, the internet and communication networks; computer software for creating, managing, and interacting with an online community; computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; computer software for processing images, graphics, audio, video, and text; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer, the internet and communication networks; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; computer software for social networking and interacting with online communities; computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for the redirection of messages, internet email, and other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; computer software for tracking and managing information regarding health, fitness, and wellness programs; computer software for use as an application programming interface [API]; computer software for use in creating, managing, measuring, and disseminating advertising of others; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software for wireless content, data and information delivery; computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, distance, speed, navigational, temperature, heart rate, and biometric data; computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software that monitor, track, and compare sport activity and fitness level; computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software to enable accessing, displaying, editing, linking, sharing and providing electronic media and information via the internet and communications networks; computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; computer software platforms for social networking; software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; connection cables; head-mounted video displays, namely, virtual reality headsets; associated electronics, namely, connection cables, electrical adaptors, system support software, and firmware for displaying video games, electronic media and images; computer application software for mobile phones, smartphones, computers, tablets, smart glasses; wearable digital electronic devices, namely, glasses, goggles, headsets, and head-mounted displays; near eye display systems, communications networks, and computer systems for communicating purposes between networks; downloadable computer software application for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications,

controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yaw sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; downloadable computer software application for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; downloadable computer software application for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; electric cables; electrical adapters; electronic monitoring instruments, other than for medical use; electronic navigational and positioning instruments and apparatus; gesture recognition software; glasses with wireless communication function; global positioning system (GPS) apparatus; virtual reality, augmented reality and mixed reality goggles; software for generating virtual images; video display cards; interactive entertainment software; electronic display interfaces; location-aware computer software, downloadable computer software and mobile software application for searching, determining and sharing locations; loudspeakers; micro displays, namely, head mounted video displays and near eye video displays; mixed reality glasses; mixed reality headsets; mixed reality software; virtual and augmented reality software for interactive entertainment; mixed reality software for navigating a mixed reality environment; mixed reality software for use in object tracking, motion control and content visualization; mixed reality software for use in operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; mobile application software for creating personalized fitness training programs; motion recognizing sensors; wearable digital electronic communication devices; near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; near eye display systems comprised of gyro sensors using GPS functions, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer software specifically adapted for goggles; near eye display systems comprising computer software for the generation and display of standard reality, augmented reality, and mixed reality content; near eye displays; computer networking and data communications equipment, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; peripherals for mobile devices, namely, pedometers and altimeters; virtual assistant software; personal digital assistants; wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; video display screens; wearable digital electronic communication devices for recording, transmission, and playback of sound and images; remote control apparatus for wearable computer hardware and smartwatches; sensors for scientific use to be worn by a human to gather human biometric data; computer software for use on handheld mobile digital electronic devices and other consumer electronics; smart glasses; smart glasses with wired and wireless audio capability; smartwatches; social software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head mounted display screen devices; software and firm ware for enabling electronic devices to share data and communicate with each other; electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems;
