(3rd ISSUE)

ANY person desirous of making opposition to, or observations in respect of, the below-cited application, should do so in writing addressed to the undersigned not later than the 4th day of July, 2025.

RE-REGISTRATION MARK: **DURANGO** CFE(9): 27.5.1, 2, 25

APPLICATION NUMBER: 10202.13 FILED AS OF: 3rd October, 2023

APPLICANT: Rocky Bands US LLC of 39 East Canal Street, Nelsonville, OHIO 45764, United States of America

INTERNATIONAL CLASS(ES): 25 for footwear, namely, work shoes and boots; winter boots; snow boots; athletic boots and shoes; hunting boots; waterproof boots; work boots; hiking shoes and boots; casual shoes and boots; shoes and boots for farm and ranch; cowboy boots; boots for horse riding.

STATEMENT OF USE: The applicant claims that it has a bona fide intention to use the mark.

AGENT: Arguelles & Company of 401 Coney Drive, Belize City, Belize.

MARK: **META**

APPLICATION NUMBER: 17577.22 FILING DATE: 4th January, 2022

APPLICANT: Meta Platforms, Inc. of 1601 Willow Road, Menlo Park, California 94025, United States of America

INTERNATIONAL CLASS(ES): 41 for entertainment services; electronic publishing services for others; publication of educational materials; online publication of electronic books and journals featuring advertising, marketing and business content, and blogs about virtual reality and augmented reality; providing online non-downloadable electronic publications resources for software developers; entertainment and educational services, namely, providing online non-downloadable publications featuring virtual reality technology via a website; entertainment and educational services, namely, providing online non-downloadable publications featuring augmented reality technology via a website; entertainment services, namely, providing interactive multiplayer and singleplayer computer games picked via the internet and electronic communication networks; entertainment services, namely, providing online video games, computer games, electronic games services, and interactive computer games; providing online computer games featuring virtual worlds in which users can interact for entertainment purposes; virtual reality game services provided online from a computer network; augmented reality game services provided online from a computer network; entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content and experiences; entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content and experiences; entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content and experiences; entertainment services, namely, providing online virtual reality environments; entertainment services, namely, providing online augmented reality environments; augmented reality video production for entertainment purposes; virtual reality video production for entertainment purposes; services for the production of entertainment in the form of audio, visual, and audiovisual content; publishing services; entertainment services; educational services; provision of online information in the field of computer games and video games entertainment via the internet and other communications networks; arranging and conducting educational conferences; organization of events for cultural purposes; organization of entertainment events; organization of educational conferences; arranging and conducting competitions and entertainment events for players of video, computer, electronic or interactive multimedia games; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, consumer electronics, and video game entertainment software and hardware; organizing and arranging exhibitions for entertainment purposes, namely, interactive entertainment, virtual reality, consumer electronics and video game entertainment industries for cultural or educational purposes; entertainment services, namely, arranging and conducting contests designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service, humanitarian activities, and sharing of creative work product; organizing exhibitions, conferences, and events in the field of software development for educational purposes; arranging contests for education and entertainment purpose for computer software development; educational services, namely, organizing and conducting conferences and seminars in the fields of artificial intelligence and the internet of things; educational services, namely, organizing

and conducting conferences, courses, seminars, and online training in the field of advertising, marketing, social networking, the internet, and social media, and distribution of course material in connection therewith; training in the field of design, advertising and communication technologies; training in the field of strategic media planning relating to advertising, marketing and business; providing information in the field of entertainment; providing entertainment information in the form of text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and other communications networks; providing educational and entertainment information in the fields of entertainment, secondary, and collegiate life, and social and community interest groups; providing of training; sporting and cultural activities; entertainment services, namely, providing online videos, not downloadable, featuring games being played by others; arranging and conducting educational conferences in the field of software development; educational seminars, classes, conferences and training in the field of open source software and software development; entertainment in the nature of ongoing television programs in the field of comedy, drama, documentary, docu-series, animated, mystery, and reality web and television series provided over the internet; online publication of journals, namely, blogs featuring comedy, dramas, documentary, and reality and entertainment content; providing online videos, not downloadable; providing online images, not downloadable; Providing non-downloadable electronic publications in the field of social media content; Providing business information in the field of social media content; providing online electronic publications in the field of social media content; publication of educational materials, namely, publishing of articles, manuals, journals and blogs in the fields of software development, artificial intelligence, machine learning, and building user interfaces; arranging and conducting of training workshops; recreation information; augmented reality video production; conducting and providing access to on-line live workouts, physical fitness instructions and sessions; conducting fitness classes; education services; educational services, namely, conducting seminars, conferences, and workshops in the fields of health and wellness; educational services, namely, organizing and conducting conferences and seminars in the fields of virtual reality, augmented reality, artificial intelligence and the internet of things; electronic publishing services; entertainment services, namely, contests to reward participants who participate in sports activities, health education, in exercise and sports activities achievements; entertainment services, namely, contests to reward participants who exercise and engage in other health-promoting activities; providing online forums relating to education for entertainment, social and business networking purposes; entertainment services, namely, publishing online forum for the dissemination of content, data, and information for users for entertainment, social and business networking purposes; entertainment services, namely, streaming of entertainment content and live streaming video of entertainment events through online facilities; radio production service; audio production services; video production services music production services; online publication of journals, namely blogs featuring vocational guidance in the fields of health, wellness, sleep, fitness and nutrition; writing services for blogs; online publication of electronic journals, namely, blogs; entertainment services, namely, organizing contest for software developers; organizing of exhibitions and events for cultural, educational, or entertainment purposes; organizing exhibitions and events in the field of interactive entertainment, virtual reality, mixed reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; organizing exhibitions and events in the field of software development for educational purposes; organizing exhibitions in the field of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics and video game entertainment industries for cultural or educational purposes; organizing live exhibitions and conferences in the fields of culture, entertainment and social networking purposes; personal coaching services in the field of sports, exercise, health, and fitness; entertainment services for sharing video recordings; physical fitness assessment services for training purposes; providing a website featuring fitness coaching, instructions, and sessions; physical fitness instructions via a website; physical fitness training services; providing sports entertainment via a website, namely, athletic skill development and fitness training information; providing video entertainment, namely conducting training sessions on physical fitness online; entertainment services, namely, providing users access to entertainment content from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; coaching services; providing information relating to sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks; publishing services, namely, publishing of electronic publications for others; virtual reality video production; **42** for design and development of computer hardware and software; providing online, non-downloadable software; providing online, non-downloadable game software; providing temporary use of non-downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; design, engineering, research, development and testing of mobile application software related to the use and functionality of hyperlinks; technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; providing temporary use of non-downloadable software that gives users the ability to engage in social networking and manage their social networking content; computer services, namely, creating an online community for registered users to engage in social networking; providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered groups within virtual communities; providing temporary use of non-downloadable software for creating and managing social media profiles and user accounts; providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; computer services in the nature of customized webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; providing temporary use of non-downloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; application service provider[ASP] featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service [PAAS] featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider [ASP] featuring application programming interface [API] software which facilitates online services for social networking and developing software applications; providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; providing temporary use of non-downloadable software for finding content and content publishers, and for subscribing to content; providing temporary use of non-

downloadable software for organizing images, video, and audiovisual content using metadata tags; providing temporary use of non-downloadable software for creating, editing, uploading, downloading, accessing viewing, posting, displaying tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; application service provider [ASP] featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media images, video, audio, audio-visual content, data, and information via the internet and communication networks; providing temporary use of non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; providing application programming interface [API] software for use in electronic messaging and transmission of audio, video, images, text, content and data; providing temporary use of non-downloadable software for electronic messaging; providing temporary use of non-downloadable software to facilitate interactive discussions via communication networks; providing temporary use of non-downloadable software for organizing events, searching for events, calendaring and managing events; providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content; providing temporary use of non-downloadable computer software for me in taking and editing photographs and recording and editing videos; application service provider [ASP] featuring software to enable or facilitate taking and editing photographs and recording and editing videos; providing temporary me of non-downloadable software for streaming multimedia entertainment content; providing temporary use of non-downloadable computer software for enabling transmission of images, audio, audio visual and video content and data; computer services, namely, providing search engines for obtaining data via the internet and communications networks; providing search engines of online network environments to provide information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audiovisual content, via the internet and communications networks; application service provider [ASP] services, namely, hosting software applications of others; providing temporary me of non-downloadable software for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; application service provider [ASP]featuring application programming interface [API] software to allow users to perform electronic business transactions via the internet and communication networks; Software as a service [SAAS] services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; providing temporary use of non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; application service provider [ASP]featuring application programming interface [API] software for creating, managing, tracking, reporting and measuring advertising of others; providing non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing temporary use of non- downloadable software for creating, sharing, disseminating and posting advertising; providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; providing temporary use of non-downloadable software for curating online user-defined content and advertisements and creating social media feeds; designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; development of computer hardware for use with electronic and interactive multimedia games; providing temporary use of non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; hosting software platforms for virtual reality-based work collaboration; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; application service provider [ASP] featuring application programming interface [API] to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable software for processing electronic payments; Platform as a service[PAAS] services featuring computer software to allow users to perform business and e-commerce transactions; providing temporary use of non-downloadable computer software for providing electronic maps; application service provider [ASP] featuring software for providing electronic maps; providing temporary use of non-downloadable computer software for searching, determining, and sharing locations; providing temporary use of non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable computer software for making reservations and bookings; application service provider [ASP] featuring software to enable or facilitate making reservations and bookings; providing temporary use of non-downloadable software that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; providing temporary use of non-downloadable software for providing a virtual marketplace; providing temporary use of non-downloadable computer software for ordering and-purchasing goods and services; application service provider [ASP]featuring software to enable or facilitate ordering and purchasing goods and services; providing temporary use of non-downloadable software for searching and identifying employment opportunities; providing temporary use of non-downloadable software for identifying and allowing users to contact government representatives; providing temporary use of non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application service provider [ASP] featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; providing online non- downloadable intelligent personal assistant software; providing online non-downloadable social assistant software; providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; application service provider [ASP] services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; providing a website featuring information in the fields of technology and software development via the internet and communication networks; design and development of virtual reality and augmented reality and mixed reality hardware and software; design and development of video game hardware

and software; software development; development of interactive multimedia software; maintenance and repair of computer software; computer services, namely, cloud hosting provider services; providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing temporary use of non-downloadable featuring technology enabling users to upload and download electronic files; application service provider, namely, providing, hosting, managing, developing, and maintaining online non-downloadable applications, software, web sites in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; data encryption services; providing temporary use of online non-downloadable software and applications for customer relationship management (CRM); application service provider [ASP] featuring software for customer relationship management (CRM); application service provider featuring application programming interface (API) software for customer relationship management (CRM); providing temporary use of non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; providing temporary use of non-downloadable software for online charitable fundraising services and donation services; scientific and technological services and research and design relating thereto; industrial analysis and research services; research services and consulting in the field of information and telecommunications technology; design of telecommunications apparatus and equipment; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; providing temporary use of online non-downloadable software, namely a platform featuring technology that enables online users to make payments and transfer funds; application service provider services, featuring application programming interface (API) software to allow users to perform ecommerce transactions via the internet and communications networks; Software as a services [SAAS] services featuring software for facilitating e-commerce transactions via the internet and communications networks; providing temporary use of non-downloadable software for converting natural language into machine-executable commands; providing temporary use of non-downloadable computer software in the nature of a query engine; providing temporary use of non-downloadable computer software for use in performing queries on large amounts of data; providing temporary use of non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; providing temporary use of online non-downloadable artificial intelligence software for facilitating machine learning software; application service provider [ASP] featuring software to enable or facilitate machine learning software; providing temporary use of online non-downloadable software for machine learning; providing temporary use of online non-downloadable software tools for software development; providing temporary use of online non-downloadable software for building user interfaces; application service provider [ASP] featuring software to enable or facilitate user interface building software; electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images online; providing on-line non-downloadable software for database management; computer network services; providing temporary use of non-downloadable software for opinion polling; providing online non-downloadable software allowing users to post questions with answer options; Platform as a service [PAAS] services featuring software that allows businesses, organizations and individuals to create and manage their online presence and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; providing temporary use of non-downloadable software featuring technology that allows users to manage their business networking accounts; providing temporary use of non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service [PAAS] featuring computer software platforms for personal assistant software; Platform as a service [PAAS] featuring computer software platforms for home automation and home device integration software; Platform as a service [PAAS] featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service [SAAS] featuring computer software for personal information management; providing temporary use of non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service [SAAS] featuring computer software for use to connect and control internet of things (IoT) electronic devices; Software as a service [SAAS] featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; Software as a service [SAAS] featuring computer software for use as an application programming interface [API]; design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; technical support services relating to computer software and applications; information, advisory and consultancy services relating to providing online non-downloadable voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; technological services, namely, data warehousing services; application service provider [ASP] services, namely, hosting computer software applications of others through the internet; technological consultation services relating to programming of multimedia applications, computer programming, hardware software, and computer system design; Software as a service [SAAS] services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; providing temporary use of on-line non-downloadable software, namely mobile communications device software for enhancing mobile access to the internet via computer, mobile computers, and mobile communications devices; troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware software problems; consultations in the field of computer hardware; design of computer software; providing temporary use of non-downloadable computer software that enables users to access and download computer software; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; application service provider [ASP] featuring application programming interface [API] software for the streaming, storage, and sharing of video games, content, data and information; computer software development in the field of mobile applications; providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; computer services; IT services; application service provider [ASP] services, namely, hosting computer software applications of others; application service provider [ASP] services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider [ASP] services, namely, providing, hosting, managing, developing, and maintaining applications,

software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; application service provider [ASP] services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; application service provider [ASP] featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; application service provider services featuring application programming interface [API] software to allow users to perform electronic business transactions via a global computer network; application service provider [ASP] featuring software to enable or facilitate purchasing goods and services; Software as a service [SAAS] services; Platform as a service [PAAS] services; providing temporary use of non-downloadable cloud computing software; providing temporary use of non-downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing temporary use of non-downloadable software for processing electronic payments and for transferring funds to and from others; hosting software platforms for electronic financial services; providing online non-downloadable software for use as an application programming interface [API] for the development, testing, and integration of blockchain software applications; providing temporary use of non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing temporary use of non-downloadable software for use in financial trading; providing temporary use of non-downloadable software for use in financial exchange; providing temporary use of non-downloadable software for use in accessing financial information and market data and trends; providing temporary use of non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing temporary use of non-downloadable software for use with virtual currency; providing software for use with digital currency; providing software for use with cryptocurrency; providing temporary use of non-downloadable software for use with distal currency wallet and storage services; providing online non-downloadable software for use as a cryptocurrency wallet; providing online non-downloadable software for use as an electronic wallet; providing online non-downloadable software for use as a digital wallet; providing temporary use of non-downloadable software for electronic funds transfer; providing temporary use of non-downloadable software for currency conversion; providing temporary use of non-downloadable software for the collection and distribution of data; providing temporary use of non-downloadable software for payment transactions; providing temporary use of non-downloadable software for connecting computers to local databases and global computer networks; providing temporary use of non-downloadable software for creating searchable databases of information and data; providing temporary use of non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing temporary use of non-downloadable software for creating and managing smart contracts; providing temporary use of non-downloadable software for managing payment and exchange transactions; providing temporary use of non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for use in enabling the electronic transfer of funds to and from others; providing temporary use of non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and opensource virtual currency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing temporary use of non-downloadable software for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; providing online non-downloadable distributed ledger platform software for use in processing financial transactions; providing temporary use of non-downloadable software for electronic funds transfer and currency conversion; providing a web portal featuring blogs and non-downloadable publications and guides in the fields of virtual currencies, digital and blockchain assets; Platform as a service [PAAS] featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software as a service [SAAS] featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; Platform as a service [PAAS] featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service [SAAS] featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing secure, private encrypted cloud storage services for electronic files and data; computer services, namely, providing online non-downloadable open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; providing temporary use of non-downloadable software for use as a cryptocurrency wallet; data mining; providing temporary use of non-downloadable software for use with blockchain technology; Software as a service [SAAS] services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; Platform as a service [PAAS] services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, distal and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service [PAAS] featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Software as a service [SAAS] featuring software platforms for facilitating transactions and payments using digital currency, virtual currency,

cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; providing online non-downloadable blockchain-based software platforms and online non-downloadable distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing temporary use of non-downloadable software for use in facilitating secure transactions; providing temporary use of non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Platform as a service [PAAS] featuring computer software platforms for computer system and application development, deployment, and management; Software as a service [SAAS] featuring computer software platforms for computer system and application development, deployment, and management; providing temporary use of non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; providing temporary use of non-downloadable software for use in the exchange of virtual items; providing temporary use of non-downloadable software for use in issuing virtual currency, cryptocurrency, digital and blockchain assets; application service provider [ASP] featuring application programming interface [API] software which facilitates online services for social networking, developing software applications; application service provider [ASP]featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; application service provider [ASP] featuring software for mapping services; application service provider [ASP]featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider [ASP] featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider [ASP]-featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; application service provider [ASP]featuring software to enable or facilitate social and destination mapping; application service provider [ASP]featuring software to enable or facilitate interaction and communication between humans and AI(artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application service provider [ASP] services; application service provider [ASP] services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; application service provider [ASP], namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; application service provider [ASP], namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; application service provider [ASP], namely, remote hosting of computer applications of others; application service provider[ASP], namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider [ASP], namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; computer consulting services; computer programming; consultation services relating to computer hardware and software and computer software and hardware design; computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; computer services, namely, creating online virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; computer services, namely, providing information in the fields of development of information technology and software development via the internet; computer software development; creating, maintaining and hosting of a website for others featuring information, online links, and electronic resources in the field of sports and fitness; creating, maintaining and hosting of an interactive web site for others that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; creating, maintaining and hosting of an interactive web site for others that enables users to compete and compare athletic information and achievements with other users; design and development of augmented reality hardware and software; design and development of computer hardware and computer software; design and development of interactive multimedia software; design and development of mixed reality hardware and software; design and development of virtual reality hardware and software; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; hosting of digital content on the internet; mapping services; technical consultancy services relating to software and hardware for mobile devices; computer software design for others; providing online non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; providing online non-downloadable computer software for facilitating interaction and communication between humans and AI(artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; providing online non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing online non-downloadable computer software for social and destination mapping; providing online non-downloadable computer software for tracking

fitness, health and wellness goals and statistics; providing online non-downloadable software for creating personalized fitness training programs; providing online non-downloadable software for creating, managing and accessing user- created and administered private groups within virtual communities; providing online non-downloadable software for ordering and purchasing goods and services; providing online non-downloadable software for processing electronic payments; providing online non-downloadable software for providing a virtual marketplace; providing online non-downloadable software for providing personal training services, workouts and fitness assessments; providing online non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; providing online non-downloadable software for streaming multimedia entertainment content; providing online non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data files, documents and electronic works; online ad-buying platform provider, namely, providing online non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing online non-downloadable cloud computing software for use in electronic storage of data; providing online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; providing online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service [PAAS] featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service [PAAS] featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service [PAAS] featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service [PAAS] services featuring computer software to allow users to perform electronic business and e-commerce transaction; providing an interactive web site featuring technology that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; providing use of online non-downloadable software that provides information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; providing an interactive web site featuring technology that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing online non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; providing a website that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; providing a website featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; providing online websites featuring technology that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; providing online non-downloadable personal assistant software; providing internet search engines to allow users to request and receive photos, videos, text, data, images, and electronic works; providing internet search engines to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; providing online non-downloadable social assistant software; providing online non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; providing online non-downloadable software for online charitable fundraising services and financial donation services; providing temporary use to non-downloadable computer software for mapping services; providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing temporary use of non-downloadable computer software for social and destination mapping; providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable software applications for providing location-based weather information; providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; providing temporary use of non-downloadable software for streaming multimedia entertainment content; providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP),

video conferencing, and audio conferencing; providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; rental of computer software that gives users the ability to upload, edit, and share images, videos and audiovisual content; Software as a service [SAAS] featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service [SAAS] featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service [SAAS] featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service [SAAS] featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service [SAAS] for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service [SAAS] services featuring software for sending and receiving electronic messages, notifications and alerts; Software as a service [SAAS] services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service [SAAS] services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations goal setting; Software as a service [SAAS] services featuring software that provides a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service [SAAS] services featuring software that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; providing online non-downloadable software for electronic messaging; technical support services relating to computer software and applications; technological services, namely, data warehousing services; authentication services; online social networking and dating services; Social networking, social introduction and dating services provided access to computer databases and online searchable databases in the fields of social networking, social introduction and dating; Providing information in the fields of social networking and social introduction; Providing social networking services, namely, the provision of information in the field of personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities; Providing concierge services for others to meet the needs of individuals, namely, booking reservations, facilitating personal purchases, arranging personal deliveries, making requested personal arrangements, providing recommendations on products and services, providing customer-specific information to meet individual needs; Legal services; Reviewing standards and practices relating to social media content; Compliance consulting in the field of social media; Consulting services in the field of online social networking and social media services; 45 for online social networking services; dating services; social networking services; providing information in the fields of social networking and social introduction; Content moderation for internet chatrooms; concierge services; legal services; reviewing standards and practices to assure compliance with social media law and regulations; consulting services in the field of regulatory compliance; consulting services in the field of online social networking and social media services; providing authentication of personal identification information [identification verification services]; concierge services, namely for others providing online searchable databases in the fields of online social networking, social introduction agency and dating services; social networking services related to sports, fitness, and coaching activities provided through a community website.

STATEMENT OF USE: The applicant claims that it has a bona fide intention to use the mark.

PRIORITY: Priority Claim is on the basis of an application filed on the 8th July, 2021 under number 83739 in Jamaica.

AGENT: Morgan & Morgan Trust Corp. Belize Ltd. of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize

APPLICATION NUMBER: 17830.22

FILING DATE: 30th March, 2022

APPLICANT: Meta Platforms, Inc. of 1601 Willow Road, Menlo Park, California 94025, United States of America

INTERNATIONAL CLASS(ES): 41 for entertainment services; electronic publishing services for others; publication of educational materials; online publication of electronic books and journals featuring advertising, marketing and business content, and blogs about virtual reality and augmented reality; providing online non-downloadable electronic publications resources for software developers; entertainment and educational services, namely, providing online non-downloadable publications featuring virtual reality technology via a website; entertainment and educational services, namely, providing online non-downloadable publications featuring augmented reality technology via a website; entertainment services, namely, providing interactive multiplayer and singleplayer computer games picked via the internet and electronic communication networks; entertainment services, namely, providing online video games, computer games, electronic games services, and interactive computer games; providing online computer games featuring virtual worlds in which users can interact for entertainment purposes; virtual reality game services provided online from a computer network; augmented reality game services provided online from a computer network; entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content and experiences; entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality

content and experiences; entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content and experiences; entertainment services, namely, providing online virtual reality environments; entertainment services, namely, providing online augmented reality environments; augmented reality video production for entertainment purposes; virtual reality video production for entertainment purposes; services for the production of entertainment in the form of audio, visual, and audiovisual content; publishing services; entertainment services; educational services; provision of online information in the field of computer games and video games entertainment via the internet and other communications networks; arranging and conducting educational conferences; organization of events for cultural purposes; organization of entertainment events; organization of educational conferences; arranging and conducting competitions and entertainment events for players of video, computer, electronic or interactive multimedia games; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, consumer electronics, and video game entertainment software and hardware; organizing and arranging exhibitions for entertainment purposes, namely, interactive entertainment, virtual reality, consumer electronics and video game entertainment industries for cultural or educational purposes; entertainment services, namely, arranging and conducting contests designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service, humanitarian activities, and sharing of creative work product; organizing exhibitions, conferences, and events in the field of software development for educational purposes; arranging contests for education and entertainment purpose for computer software development; educational services, namely, organizing and conducting conferences and seminars in the fields of artificial intelligence and the internet of things; educational services, namely, organizing and conducting conferences, courses, seminars, and online training in the field of advertising, marketing, social networking, the internet, and social media, and distribution of course material in connection therewith; training in the field of design, advertising and communication technologies; training in the field of strategic media planning relating to advertising, marketing and business; providing information in the field of entertainment; providing entertainment information in the form of text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and other communications networks; providing educational and entertainment information in the fields of entertainment, secondary, and collegiate life, and social and community interest groups; providing of training; sporting and cultural activities; entertainment services, namely, providing online videos, not downloadable, featuring games being played by others; arranging and conducting educational conferences in the field of software development; educational seminars, classes, conferences and training in the field of open source software and software development; entertainment in the nature of ongoing television programs in the field of comedy, drama, documentary, docu-series, animated, mystery, and reality web and television series provided over the internet; online publication of journals, namely, blogs featuring comedy, dramas, documentary, and reality and entertainment content; providing online videos, not downloadable; providing online images, not downloadable; Providing non-downloadable electronic publications in the field of social media content; Providing business information in the field of social media content; providing online electronic publications in the field of social media content; publication of educational materials, namely, publishing of articles, manuals, journals and blogs in the fields of software development, artificial intelligence, machine learning, and building user interfaces; arranging and conducting of training workshops; recreation information; augmented reality video production; conducting and providing access to on-line live workouts, physical fitness instructions and sessions; conducting fitness classes; education services; educational services, namely, conducting seminars, conferences, and workshops in the fields of health and wellness; educational services, namely, organizing and conducting conferences and seminars in the fields of virtual reality, augmented reality, artificial intelligence and the internet of things; electronic publishing services; entertainment services, namely, contests to reward participants who participate in sports activities, health education, in exercise and sports activities achievements; entertainment services, namely, contests to reward participants who exercise and engage in other health-promoting activities; providing online forums relating to education for entertainment, social and business networking purposes; entertainment services, namely, publishing online forum for the dissemination of content, data, and information for users for entertainment, social and business networking purposes; entertainment services, namely, streaming of entertainment content and live streaming video of entertainment events through online facilities; radio production service; audio production services; video production services music production services; online publication of journals, namely blogs featuring vocational guidance in the fields of health, wellness, sleep, fitness and nutrition; writing services for blogs; online publication of electronic journals, namely, blogs; entertainment services, namely, organizing contest for software developers; organizing of exhibitions and events for cultural, educational, or entertainment purposes; organizing exhibitions and events in the field of interactive entertainment, virtual reality, mixed reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; organizing exhibitions and events in the field of software development for educational purposes; organizing exhibitions in the field of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics and video game entertainment industries for cultural or educational purposes; organizing live exhibitions and conferences in the fields of culture, entertainment and social networking purposes; personal coaching services in the field of sports, exercise, health, and fitness; entertainment services for sharing video recordings; physical fitness assessment services for training purposes; providing a website featuring fitness coaching, instructions, and sessions; physical fitness instructions via a website; physical fitness training services; providing sports entertainment via a website, namely, athletic skill development and fitness training information; providing video entertainment, namely conducting training sessions on physical fitness online; entertainment services, namely, providing users access to entertainment content from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; coaching services; providing information relating to sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks; publishing services, namely, publishing of electronic publications for others; virtual reality video production; **42** for design and development of computer hardware and software; providing online, non-downloadable software; providing online, non-downloadable game software; providing temporary use of non-downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; design, engineering, research, development and testing of mobile application software related to the use and functionality of hyperlinks; technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; providing temporary use of non-downloadable software that gives users the

ability to engage in social networking and manage their social networking content; computer services, namely, creating an online community for registered users to engage in social networking; providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered groups within virtual communities; providing temporary use of non-downloadable software for creating and managing social media profiles and user accounts; providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; computer services in the nature of customized webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; providing temporary use of non-downloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; application service provider [ASP] featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service [PAAS] featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider [ASP] featuring application programming interface [API] software which facilitates online services for social networking and developing software applications; providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio- and video content, live streaming video, commentary, advertisements, news, and internet links; providing temporary use of non-downloadable software for finding content and content publishers, and for subscribing to content; providing temporary use of non-downloadable software for organizing images, video, and audiovisual content using metadata tags; providing temporary use of non-downloadable software for creating, editing, uploading, downloading, accessing viewing, posting, displaying tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; application service provider [ASP] featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media images, video, audio, audio-visual content, data, and information via the internet and communication networks; providing temporary use of non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; providing application programming interface [API] software for use in electronic messaging and transmission of audio, video, images, text, content and data; providing temporary use of non-downloadable software for electronic messaging; providing temporary use of non-downloadable software to facilitate interactive discussions via communication networks; providing temporary use of non-downloadable software for organizing events, searching for events, calendaring and managing events; providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content; providing temporary use of non-downloadable computer software for me in taking and editing photographs and recording and editing videos; application service provider [ASP] featuring software to enable or facilitate taking and editing photographs and recording and editing videos; providing temporary use of non-downloadable software for streaming multimedia entertainment content; providing temporary use of non-downloadable computer software for enabling transmission of images, audio, audio visual and video content and data; computer services, namely, providing search engines for obtaining data via the internet and communications networks; providing search engines of online network environments to provide information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audiovisual content, via the internet and communications networks; application service provider [ASP] services, namely, hosting software applications of others; providing temporary use of non-downloadable software for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; application service provider [ASP] featuring application programming interface [API] software to allow users to perform electronic business transactions via the internet and communication networks; Software as a service [SAAS] services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; providing temporary use of non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; application service provider [ASP] featuring application programming interface [API] software for creating, managing, tracking, reporting and measuring advertising of others; providing non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing temporary use of non-downloadable software for creating, sharing, disseminating and posting advertising; providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; providing temporary use of non-downloadable software for curating online user-defined content and advertisements and creating social media feeds; designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; development of computer hardware for use with electronic and interactive multimedia games; providing temporary use of non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; hosting software platforms for virtual reality-based work collaboration; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; application service provider [ASP] featuring application programming interface [API] to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable software for processing electronic payments; Platform as a service [PAAS] services featuring computer software to allow users to perform business and e-commerce transactions; providing temporary use of non-downloadable computer software for providing electronic maps; application service provider [ASP] featuring software for providing electronic maps; providing temporary use of non-downloadable computer software for searching, determining, and sharing locations; providing temporary use of non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable computer software for making reservations and bookings; application service provider [ASP] featuring software to enable or

facilitate making reservations and bookings; providing temporary use of non-downloadable software that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; providing temporary use of non-downloadable software for providing a virtual marketplace; providing temporary use of non-downloadable computer software for ordering and-purchasing goods and services; application service provider [ASP]featuring software to enable or facilitate ordering and purchasing goods and services; providing temporary use of non-downloadable software for searching and identifying employment opportunities; providing temporary use of non-downloadable software for identifying and allowing users to contact government representatives; providing temporary use of non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application service provider [ASP] featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; providing online non- downloadable intelligent personal assistant software; providing online non-downloadable social assistant software; providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; application service provider [ASP] services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; providing a website featuring information in the fields of technology and software development via the internet and communication networks; design and development of virtual reality and augmented reality and mixed reality hardware and software; design and development of video game hardware and software; software development; development of interactive multimedia software; maintenance and repair of computer software; computer services, namely, cloud hosting provider services; providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing temporary use of non- downloadable featuring technology enabling users to upload and download electronic files; application service provider, namely, providing, hosting, managing, developing, and maintaining online non-downloadable applications, software, web sites in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; data encryption services; providing temporary use of online non-downloadable software and applications for customer relationship management (CRM); application service provider [ASP] featuring software for customer relationship management (CRM); application service provider featuring application programming interface (API) software for customer relationship management (CRM); providing temporary use of non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; providing temporary use of non-downloadable software for online charitable fundraising services and donation services; scientific and technological services and research and design relating thereto; industrial analysis and research services; research services and consulting in the field of information and telecommunications technology; design of telecommunications apparatus and equipment; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; providing temporary use of online non-downloadable software, namely a platform featuring technology that enables online users to make payments and transfer funds; application service provider services, featuring application programming interface (API) software to allow users to perform ecommerce transactions via the internet and communications networks; Software as a services [SAAS] services featuring software for facilitating e-commerce transactions via the internet and communications networks; providing temporary use of non-downloadable software for converting natural language into machine-executable commands; providing temporary use of non-downloadable computer software in the nature of a query engine; providing temporary use of non-downloadable computer software for use in performing queries on large amounts of data; providing temporary use of non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; providing temporary use of online non-downloadable artificial intelligence software for facilitating machine learning software; application service provider [ASP] featuring software to enable or facilitate machine learning software; providing temporary use of online non-downloadable software for machine learning; providing temporary use of online non-downloadable software tools for software development; providing temporary use of online non-downloadable software for building user interfaces; application service provider [ASP] featuring software to enable or facilitate user interface building software; electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images online; providing on-line non-downloadable software for database management; computer network services; providing temporary use of non-downloadable software for opinion polling; providing online non-downloadable software allowing users to post questions with answer options; Platform as a service [PAAS] services featuring software that allows businesses, organizations and individuals to create and manage their online presence sand to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; providing temporary use of non-downloadable software featuring technology that allows users to manage their business networking accounts; providing temporary use of non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service [PAAS] featuring computer software platforms for personal assistant software; Platform as a service [PAAS] featuring computer software platforms for home automation and home device integration software; Platform as a service [PAAS] featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service [SAAS] featuring computer software for personal information management; providing temporary use of non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service [SAAS] featuring computer software for use to connect and control internet of things (lot) electronic devices; Software as a service [SAAS] featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (lot) electronic devices; Software as a service [SAAS]featuring computer software for use as an application programming interface [API]; design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; technical support services relating to computer software and applications; information, advisory and consultancy services relating to providing online non-downloadable voice command and recognition software, speech to text conversion software, and voice-enabled

software applications, home automation, and internet-of-things software; technological services, namely, data warehousing services; application service provider [ASP] services, namely, hosting computer software applications of others through the internet; technological consultation services relating to programming of multimedia applications, computer programming, hardware software, and computer system design; Software as a service [SAAS]services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; providing temporary use of on-line non-downloadable software, namely mobile communications device software for enhancing mobile access to the internet via computer, mobile computers, and mobile communications devices; troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware software problems; consultations in the field of computer hardware; design of computer software; providing temporary use of non-downloadable computer software that enables users to access and download computer software; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; application service provider [ASP] featuring application programming interface [API] software for the streaming, storage, and sharing of video games, content, data and information; computer software development in the field of mobile applications; providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; computer services; IT services; application service provider [ASP] services, namely, hosting computer software applications of others; application service provider [ASP] services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider [ASP] services, namely, providing, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; application service provider [ASP]services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; application service provider [ASP]featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; application service provider services featuring application programming interface [API] software to allow users to perform electronic business transactions via a global computer network; application service provider [ASP] featuring software to enable or facilitate purchasing goods and services; Software as a service [SAAS]services; Platform as a service [PAAS] services; providing temporary use of non-downloadable cloud computing software; providing temporary use of non-downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing temporary use of non-downloadable software for processing electronic payments and for transferring funds to and from others; hosting software platforms for electronic financial services; providing online non-downloadable software for use as an application programming interface [API] for the development, testing, and integration of blockchain software applications; providing temporary use of non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing temporary use of non-downloadable software for use in financial trading; providing temporary use of non-downloadable software for use in financial exchange; providing temporary use of non-downloadable software for use in accessing financial information and market data and trends; providing temporary use of non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing temporary use of non-downloadable software for use with virtual currency; providing software for use with digital currency; providing software for use with cryptocurrency; providing temporary use of non-downloadable software for use with distal currency wallet and storage services; providing online non-downloadable software for use as a cryptocurrency wallet; providing online non-downloadable software for use as an electronic wallet; providing online non-downloadable software for use as a digital wallet; providing temporary use of non-downloadable software for electronic funds transfer; providing temporary use of non-downloadable software for currency conversion; providing temporary use of non-downloadable software for the collection and distribution of data; providing temporary use of non-downloadable software for payment transactions; providing temporary use of non-downloadable software for connecting computers to local databases and global computer networks; providing temporary use of non-downloadable software for creating searchable databases of information and data; providing temporary use of non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing temporary use of non-downloadable software for creating and managing smart contracts; providing temporary use of non-downloadable software for managing payment and exchange transactions; providing temporary use of non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for use in enabling the electronic transfer of funds to and from others; providing temporary use of non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and opensource virtual currency for use in blockchain-based transactions; providing temporary use of non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing temporary use of non-downloadable software for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; providing online non-downloadable distributed ledger platform software for use in processing financial transactions; providing temporary use of non-downloadable software for electronic funds transfer and currency conversion; providing a web portal featuring blogs and non-downloadable publications and guides in the fields of virtual currencies, digital and blockchain assets; Platform as a service [PAAS] featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software as a service [SAAS] featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital

and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; Platform as a service [PAAS] featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service [SAAS] featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing secure, private encrypted cloud storage services for electronic files and data; computer services, namely, providing online non-downloadable open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; providing temporary use of non-downloadable software for use as a cryptocurrency wallet; data mining; providing temporary use of non-downloadable software for use with blockchain technology; Software as a service [SAAS] services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; Platform as a service [PAAS] services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, distal and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service [PAAS] featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Software as a service [SAAS] featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; providing online non-downloadable blockchain-based software platforms and online non-downloadable distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing temporary use of non-downloadable software for use in facilitating secure transactions; providing temporary use of non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, distal tokens, crypto tokens and utility tokens; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Platform as a service [PAAS] featuring computer software platforms for computer system and application development, deployment, and management; Software as a service [SAAS] featuring computer software platforms for computer system and application development, deployment, and management; providing temporary use of non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; providing temporary use of non-downloadable software for use in the exchange of virtual items; providing temporary use of non-downloadable software for use in issuing virtual currency, cryptocurrency, digital and blockchain assets; application service provider [ASP] featuring application programming interface [API] software which facilitates online services for social networking, developing software applications; application service provider [ASP] featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; application service provider [ASP] featuring software for mapping services; application service provider [ASP] featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider [ASP] featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider [ASP]-featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; application service provider [ASP] featuring software to enable or facilitate social and destination mapping; application service provider [ASP] featuring software to enable or facilitate interaction and communication between humans and A!(artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application service provider [ASP] services; application service provider [ASP] services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; application service provider [ASP], namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; application service provider [ASP], namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; application service provider [ASP], namely, remote hosting of computer applications of others; application service provider [ASP], namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider [ASP], namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; computer consulting services; computer programming; consultation services relating to computer hardware and software and computer software and hardware design; computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; computer services, namely, creating online virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events

and interactive discussions via the internet and communication networks; computer services, namely, providing information in the fields of development of information technology and software development via the internet; computer software development; creating, maintaining and hosting of a website for others featuring information, online links, and electronic resources in the field of sports and fitness; creating, maintaining and hosting of an interactive web site for others that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; creating, maintaining and hosting of an interactive web site for others that enables users to compete and compare athletic information and achievements with other users; design and development of augmented reality hardware and software; design and development of computer hardware and computer software; design and development of interactive multimedia software; design and development of mixed reality hardware and software; design and development of virtual reality hardware and software; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; hosting of digital content on the internet; mapping services; technical consultancy services relating to software and hardware for mobile devices; computer software design for others; providing online non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; providing online non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; providing online non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing online non-downloadable computer software for social and destination mapping; providing online non-downloadable computer software for tracking fitness, health and wellness goals and statistics; providing online non-downloadable software for creating personalized fitness training programs; providing online non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; providing online non-downloadable software for ordering and purchasing goods and services; providing online non-downloadable software for processing electronic payments; providing online non-downloadable software for providing a virtual marketplace; providing online non-downloadable software for providing personal training services, workouts and fitness assessments; providing online non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; providing online non-downloadable software for streaming multimedia entertainment content; providing online non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data files, documents and electronic works; online ad-buying platform provider, namely, providing online non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing online non-downloadable cloud computing software for use in electronic storage of data; providing online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; providing online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service [PAAS] featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service [PAAS] featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service [PAAS] featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service [PAAS] services featuring computer software to allow users to perform electronic business and e-commerce transaction; providing an interactive web site featuring technology that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; providing use of online non-downloadable software that provides information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; providing an interactive web site featuring technology that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing online non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; providing a website that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; providing a website featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; providing online websites featuring technology that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; providing online non-downloadable personal assistant software; providing internet search engines to allow users to request and receive photos, videos, text, data, images, and electronic works; providing internet search engines to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; providing online non-downloadable social assistant software; providing online non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; providing online non-downloadable software for online charitable fundraising services and financial donation services; providing temporary use to non-downloadable computer software for mapping services; providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing temporary use of non-downloadable computer software for social and

destination mapping; providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable software applications for providing location-based weather information; providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; providing temporary use of non-downloadable software for streaming multimedia entertainment content; providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; rental of computer software that gives users the ability to upload, edit, and share images, videos and audiovisual content; Software as a service [SAAS] featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service [SAAS] featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service [SAAS] featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service [SAAS] featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service [SAAS] for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service [SAAS] services featuring software for sending and receiving electronic messages, notifications and alerts; Software as a service [SAAS] services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service [SAAS] services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations goal setting; Software as a service [SAAS] services featuring software that provides a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service [SAAS] services featuring software that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; providing online non-downloadable software for electronic messaging; technical support services relating to computer software and applications; technological services, namely, data warehousing services; authentication services; online social networking and dating services; Social networking, social introduction and dating services provided access to computer databases and online searchable databases in the fields of social networking, social introduction and dating; Providing information in the fields of social networking and social introduction; Providing social networking services, namely, the provision of information in the field of personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities; Providing concierge services for others to meet the needs of individuals, namely, booking reservations, facilitating personal purchases, arranging personal deliveries, making requested personal arrangements, providing recommendations on products and services, providing customer-specific information to meet individual needs; Legal services; Reviewing standards and practices relating to social media content; Compliance consulting in the field of social media; Consulting services in the field of online social networking and social media services; 45 for online social networking services; dating services; social networking services; providing information in the fields of social networking and social introduction; Content moderation for internet chatrooms; concierge services; legal services; reviewing standards and practices to assure compliance with social media law and regulations; consulting services in the field of regulatory compliance; consulting services in the field of online social networking and social media services; providing authentication of personal identification information [identification verification services]; concierge services, namely for others providing online searchable databases in the fields of online social networking, social introduction agency and dating services; social networking services related to sports, fitness, and coaching activities provided through a community website.

APPLICANT: Solventum Intellectual Properties Company of 3M Center, Building 275, 2510 Conway Avenue East, Maplewood MN 55144 (United States of America).

INTERNATIONAL CLASS(ES): **5** Sanitary preparations for medical purposes; antiseptics; disinfectants; antifungal preparations; hand sanitizing preparations; plasters; materials for dressings; surgical, medical and wound dressings; adhesive tapes for medical purposes; surgical tape; impregnated medicated pads; dental preparations and articles; material for stopping teeth; dental wax; dental impression materials; dental cements; gas mixtures for medical use; burn dressings; corn pads; corn rings for the feet; corn plasters; chilblain preparations; medical dressings; medicated preparations for skin treatment; foot care preparations for medical use; bacterial preparations for medical purposes; antiseptic liquid bandages; liquid bandages for skin wounds; topical gels for medical and therapeutic use; bandages for dressings; bandages for skin wounds; adhesive bandages; surgical bandages; biological indicators for monitoring sterilization processes for medical or veterinary purposes; disinfectant for use on incise area of a surgical patient; gauze for dressings; materials for dressings, namely, gauze, hydrogel pads, hydrocolloid pads; hand-sanitizing preparations; adhesive strips for medical purposes; hemostatics for medical purposes; medical wound dressings for use in cleansing wounds, exfoliating skin and wounds and removing debris from skin and wounds; medicated skin care preparations; medicated compresses; sanitizing wipes; antiseptic preparations; plasters for medical purposes; medical plasters; adhesive plasters for medical purposes; swabs for medical purposes; medicated swabs; therapeutic medicated bath preparations; medicated bath preparations; bath salts and bath preparations for medical purposes; transparent film dressings; antiseptic preparations for wound care; surgical bandages for skin wounds; wound dressings for negative pressure tissue treatment; anti-microbial preparations; eye patches for medical purposes; bonding and primer materials for dental purposes; materials for repairing teeth and dental prostheses; dental ceramics; material for dental bridges; dental adhesives; adhesives for dental and dentistry purposes; dental materials for duplicating models of teeth; dental mastics; dental composite materials; teeth filling material; dental restoration compounds; dental etching materials; fissure sealant for dental and dental technical purposes; lining materials for dental purposes; material for dental crowns; materials for artificial teeth; materials for dental fillings and for sealing purposes; medicated candy, namely, a xylitol sweetened mint; medicated dental rinses; anti-cavity mouth rinses for medical purposes; medicated anti-cavity dental rinses; medicated mouthwash; medicated dentifrices; medicated toothpaste; bonding and primer materials for dental purposes; dental veneers; dental veneers for use in dental restoration; dental resin for temporary bridges, crowns and veneers; **9** Speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled

information and communication devices; voice recognition software, downloadable; downloadable computer software for medical records management, namely, software for recording and reporting patient medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet-based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information; downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; dictation machines; microphones; light pens; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable software applications for mobile phones featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile application software featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable software applications for mobile phones for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory apparatus and instruments; laboratory filters; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific apparatus and instruments; membranes for filtration [scientific]; filters for blood and blood components for laboratory use; ophthalmic lenses; prisms; **10** Orthopedic articles; orthopedic inserts for footwear; medical hosiery; orthopedic hosiery; stethoscopes; orthopedic and compression bandages; sheets [drapes] for medical use; medical gowns; surgical gowns; intravenous administration instruments for medical purposes; body warming devices for medical use; medical devices for closing wounds; wound drainage apparatus; wound suction apparatus; orthodontic appliances; orthodontic brackets [braces] for use in straightening teeth; dental crowns; cases fitted for medical instruments; implant abutments for dental purposes; apparatus for use in the preparation of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental apparatus, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophylaxis angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; tooth polishing appliances for use by dentists; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays; dental posts; dental instruments, namely, preparation dental instruments for mixing, dispensation and application of dental impression materials, bite checking materials; dental filling and bonding material contained in disposable applicators; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; buccal tubes; orthodontic rubber bands; wound suction apparatus; wound drainage apparatus; stethoscopes; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and display of heart sounds and other physiological acoustic signals; elastic bandages; orthopaedic splints; support bandages; padding for orthopedic casts; surgical sterile sheets; medical isolation gowns; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac,

electrocardiograph, electroencephalograph and other types of patient monitoring; medical leads and connectors for use with medical electrodes; apparatus for cardiac defibrillation; shaped padding for supporting parts of the body [medical use]; trays for holding surgical instruments; thermo-electric compresses [surgery]; medical examination sheets; operating theatre sheets; thermometers for medical use; cold packs for medical purposes; chemically activated hot gel packs for medical use; surgical skin staplers; drainage tubes for medical purposes; wound drainage pouches; medical and surgical apparatus for tissue transplantation; electronic temperature monitors for medical use; blankets for medical purposes; medical apparatus for human and veterinary use for warming and cooling a patient's body temperature, comprising an air convective device, a hose, a gown or blanket, sensors, controls, and parts and fittings therefor; medical apparatus for intravenous administration of fluids, namely, fluid warmers; clothing, headgear and footwear for medical personnel and patients; medical device; injectors for medical purposes; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; pumps for medical purposes; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; surgical and wound treating equipment; medical apparatus and instruments; hypodermic needles; blood filters; hemodialysis apparatus; orthopedic apparatus and instruments for diagnostic and therapeutic use; veterinary apparatus and instruments; orthopedic cushions; padding for orthopedic casts; orthopedic cushions, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles, disposable orthopedic insoles; slings [support bandages]; finger splints; elastic bandages for joints; elastic bandages, namely, elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; surgical staple removers; surgical sponges; surgical staplers; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks for medical use; respirators for filtering air for medical purposes; sanitary masks; testing apparatus for medical purposes; **11** Water filtering apparatus; water purification units; autoclaves for medical use; membranes for the filtration of water; membranes for water filtering apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; industrial air purifiers; water purification and filtration apparatus; apparatus for the separation of liquids being water filtering apparatus; cartridge filtration units [water treatment equipment]; water conditioning units; reverse osmosis water purification units; flow restrictors for reverse osmosis water purification units; water purification units, non-electrical; air filters; air conditioning filters; water purifying units, for potable water for commercial or industrial use; water filtering units for domestic, commercial, and industrial use; water filters and components thereof, namely, filter cartridges for reduction of hard water, acid water, iron, lead, dirt, rust and sediment from drinking water supplies, from hot water systems, and from household appliances and humidifiers, for domestic and industrial use; water filters; air purifiers; **35** Medical transcription services; medical transcription services used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and delivery and retrieval of health related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; on-line retail store services featuring toiletries, therapeutic devices, surgical, medical, orthopedic, orthotic, chiropodial, podiatric, foot care related, and veterinary apparatus and instruments, wound care preparations and instruments, dressings, medicated products and preparations, and preparations for the care of the skin, feet and body; **41** Medical education services; educational services in the healthcare sector; providing continuing medical education courses; educational services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, seminars, workshops and learning tools to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; educational services, namely, training in the use of computer software for voice recognition and medical records; **42** software Consulting services; research and design services for medical purposes; software as a service (SAAS) for speech recognition, medical transcription, coding and reimbursement; software as a service (SAAS) for creating and maintaining medical, patient and healthcare records; environmental testing services to detect contaminants in water; computer software consultation; technical support services, namely, troubleshooting of computer software problems; computer software design; providing temporary use of on-line non-downloadable software that enables users to monitor and improve compliance with governmental

guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites via a website; providing temporary use of on-line non-downloadable software that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organization via a website; providing temporary use of on-line non-downloadable software that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; providing temporary use of on-line non-downloadable software that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections via a website; providing temporary use of on-line non-downloadable software that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field via a website; providing temporary use of on-line, non-downloadable software for use in extracting patient clinic notes and medical records and translating language for assigning diagnostic and treatment codes, and for comparing accuracy with other coding inputs, for use primarily in medical reimbursement; providing temporary use of online non-downloadable software using speech recognition for use by medical healthcare professionals for the documentation of patient medical information and electronic health records; providing temporary use of online non-downloadable software for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescription; providing temporary use of online non-downloadable software for artificial intelligence virtual assistance for use in the healthcare field in the clinical documentation of patient medical information in health information systems and in the management of clinical documentation improvement (CDI) processes; providing temporary use of non-downloadable software for use in extracting medical records and translating language for assigning codes primarily for medical reimbursement; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use as a teaching aid in training auscultation and cardiovascular diagnostics; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; providing temporary use of online non-downloadable software featuring continuing professional education and training seminars and courses for use by medical personnel in the field of auscultation and cardiovascular diagnostics; providing temporary use of non-downloadable software that identifies patterns of language in medical documents in order to organize, manipulate, and codify such documents; software as a service (SAAS), namely, services featuring software for providing medical, health, and wellness information accessible through mobile applications; software as a service (SAAS), namely, services featuring software for providing medical, health, and wellness information accessible through remote connectivity module equipped devices; software as a service (SAAS), namely, software to assist in ordering or purchasing products; **44** providing medical support in the monitoring of patients receiving medical treatments; medical consultancy services; dental consultations; healthcare consultancy services; medical services, namely, providing information related to advanced wound care, negative pressure wound therapy, and therapeutic support systems; remote monitoring of medical data for medical diagnosis and treatment; medical testing for diagnostic or treatment purposes; medical diagnostic services; healthcare services.
