INTERNATIONAL CLASS(ES): **3** for non-medicated cosmetics and toiletry preparations; toothpaste; non-medicated skin care preparations, namely, cleansers, creams, lotions, moisturizers, barrier creams and emollients; hand cleaning preparations; hand soaps; non-medicated skin care preparations; **5** for sanitary preparations for medical purposes; antiseptics; disinfectants; antifungal preparations; hand sanitizing preparations; plasters; materials for dressings; surgical, medical and wound dressings; adhesive tapes for medical purposes; surgical tapes; adhesive patches for medical purposes; dental preparations and articles; material for stopping teeth; dental wax; dental impression materials; dental cements; biological indicators for monitoring sterilization processes for medical or veterinary purposes; materials for dressing wounds; burn dressings; corn pads; corn rings for the feet; corn plasters; chilblain preparations; medical dressings; skin care preparations for medical use; foot care preparations for medical use; antimicrobials for dermatologic use; antiseptic liquid bandages; liquid bandages for skin wounds; bandages for dressings; bandages for skin wounds; adhesive bandages; surgical bandages; biological indicators for monitoring sterilization processes for medical or veterinary purposes; disinfectant for use on incise area of a surgical patient; wound dressings, namely, foam-based dressings, colloid and collagen based dressings, and chemically treated dressings; gauze for dressings; materials for dressings, namely, gauze, hydrogel pads, hydrocolloid pads; hand-sanitizing preparations; adhesive strips for medical purposes; hemostatics for medical purposes; medical wound dressings for use in cleansing wounds, exfoliating skin and wounds and removing debris from skin and wounds; medicated skin care preparations; medicated compresses; Antiseptic cleansers; sanitizing wipes; antiseptic preparations; impregnated pads containing medicated preparations; plasters for medical purposes; medical plasters; adhesive plasters for medical purposes; swabs for medical purposes; medicated swabs; therapeutic medicated bath preparations; medicated bath preparations; bath salts and bath preparations for medical purposes; burn dressings; surgical bandages for skin wounds; wound dressings for negative pressure tissue treatment; eye patches for medical purposes; bonding and primer materials for dental purposes; material for repairing teeth and for dental crowns and bridges; dental ceramics; material for dental bridges; dental adhesives; adhesives for dentistry and dental technical purposes; dental materials for duplicating models of teeth; embedding material for dental use; fissure sealants for dental use; dental composite materials; teeth filling material; dental restoration compounds; dental etching materials; fissure sealant for dental and dental technical purposes; lining materials for dental purposes; Material for dental crowns; material for dental bridges; materials for artificial teeth; materials for dental fillings and for sealing purposes; medicated candy, namely, a xylitol sweetened mint; medicated dental rinses; anticavity mouth rinses for medical purposes; medicated anti-cavity dental rinses; medicated mouthwash; medicated dentifrices; medicated toothpaste; Dental lacquer; bonding and primer materials for dental purposes; dental veneers for use in dental restoration; dental veneers for use in dental restoration; dental resin for temporary bridges, crowns and veneers; Adhesives for dental and dentistry use; **9** for speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of

medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled information and communication devices; voice recognition software, downloadable; downloadable computer software for medical records management, namely, software for recording and reporting patient medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet- based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information; downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; microphones; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable software applications for mobile phones featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable software applications for mobile phones featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable software applications for mobile phones for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory apparatus and instruments; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific apparatus and instruments; filters for blood and blood components for laboratory use; ophthalmic lenses; thermosensitive temperature indicator strips; 10 for orthopedic articles; medical hosiery; stethoscopes; compression bandages; medical drapes of non-woven textile materials; Surgical drapes; Sterile sheets, surgical; medical gowns; Surgical gowns; medical blankets for the warming of patients; medical devices for closing wounds; apparatus for use in medicine in the drainage of wounds; wound suction apparatus; incubators for medical purposes; orthodontic brackets [braces] for use in straightening teeth; dental crowns; dialysis membranes; cases fitted for medical instruments; implant abutments for dental purposes; dental apparatus and instruments for producing, relining and repair of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental apparatus and instruments, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophyl angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays dental posts; dental instruments, namely, preparation dental instruments for mixing, dispensation and application of dental impression materials, bite checking materials; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; buccal tubes; orthodontic rubber bands; wound suction apparatus medical stethoscopes; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and display of

heart sounds and other physiological acoustic signals; elasticated bandages for supportive use; orthopedic splints; support bandages; orthopaedic compression supports; padding for orthopedic casts; sterile sheets, surgical; medical isolation gowns; sheets [drapes] for medical use; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac, electrocardiograph, electroencephalograph and other types of patient monitoring; apparatus for cardiac defibrillation; pads for preventing pressure sores on patient bodies; compresses for supporting the body; medical examination sheets; thermometers for medical use; cold packs for medical purposes; thermal packs for first aid purposes; surgical skin staplers; drainage tubes for medical purposes; containers for medical waste; medical instruments for cutting tissue; electronic temperature monitors for medical use; blankets for medical purposes; apparatus for administering intravenous solutions; clothing, headgear and footwear for medical personnel and patients [other than uniforms]; electronic apparatus for medical purposes; injectors for medical purposes; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; medical pumps; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; hypodermic needles; blood filters; hemodialysis apparatus; orthopedic apparatus and instruments for diagnostic and therapeutic use; medical and veterinary apparatus and instruments, namely, orthopedic cushions and padding, orthopedic padding for the treatment and prevention of oedema or scarring, orthopedic padding for use in combination with casts or with prosthetics, medical and surgical gloves; orthopedic cushions, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles, disposable orthopedic insoles; slings for medical use; slings [support bandages]; bandages for joints; elastic bandages, namely, elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; surgical staple removers; surgical sponges; surgical staplers; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks for medical use; protective masks for medical purposes; respirators for filtering air for medical purposes; sanitary masks; testing apparatus for medical purposes for analyzing sterilization indicators; **11** for water filtering apparatus; apparatus for the purification of liquids; sterilization, disinfection and decontamination equipment; membrane filtration units for water treatment apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; water purification units; apparatus for the separation of liquids being water filtering apparatus; cartridge filtration units [water treatment equipment]; water softening and conditioning units; flow restrictors for reverse osmosis water purification systems; air filters for industrial and domestic use in furnaces, air conditioners, room air cleaners, home and building HVAC air ventilation and cleaning equipment, air cleaning and purification units, and other domestic, industrial and commercial uses and installations; water purifying units, for potable water for commercial or industrial use; industrial installations for filtering liquids; water filtering units for domestic, commercial, and industrial use; water filters; air purifiers; autoclaves for medical use; **35** for medical transcription services; medical transcription services; business consulting services; online retail store services; business management consulting; medical transcription used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and delivery and retrieval of health related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; outsourced administrative management for companies; business consulting for enterprises; administration of the business affairs of retail stores; online ordering services; providing online marketplaces for sellers of goods and or services; analysis of business data, namely, reviewing medical documents and assigning medical, billing, insurance, and administrative codes thereto; **41** for medical education services; educational services in the healthcare sector; educational and training services relating to healthcare; education services, namely, providing online continuing professional education and training seminars and courses in the field of auscultation and cardiovascular diagnostics for medical personnel; educational services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith;
