and primer materials for dental purposes; materials for repairing teeth and dental prostheses; dental ceramics; material for dental bridges; dental adhesives; adhesives for dental and dentistry purposes; dental materials for duplicating models of teeth; dental mastics; dental composite materials; teeth filling material; dental restoration compounds; dental etching materials; fissure sealant for dental and dental technical purposes; lining materials for dental purposes; material for dental crowns; materials for artificial teeth; materials for dental fillings and for sealing purposes; medicated candy, namely, a xylitol sweetened mint; medicated dental rinses; anti-cavity mouth rinses for medical purposes; medicated anti-cavity dental rinses; medicated mouthwash; medicated dentifrices; medicated toothpaste; bonding and primer materials for dental purposes; dental veneers; dental veneers for use in dental restoration; dental resin for temporary bridges, crowns and veneers; **9** Speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled information and communication devices; voice recognition software, downloadable; downloadable computer software for medical records management, namely, software for recording and reporting patient medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet-based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information; downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; dictation machines; microphones; light pens; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable software applications for mobile phones featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile application software featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable software applications for mobile phones for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory apparatus and instruments; laboratory filters; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific apparatus and instruments; membranes for filtration [scientific]; filters for blood and blood components for laboratory use; ophthalmic lenses; prisms; **10** Orthopedic articles; orthopedic inserts for footwear; medical hosiery; orthopedic hosiery; stethoscopes; orthopedic and compression bandages;

sheets [drapes] for medical use; medical gowns; surgical gowns; intravenous administration instruments for medical purposes; body warming devices for medical use; medical devices for closing wounds; wound drainage apparatus; wound suction apparatus; orthodontic appliances; orthodontic brackets [braces] for use in straightening teeth; dental crowns; cases fitted for medical instruments; implant abutments for dental purposes; apparatus for use in the preparation of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental apparatus, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophylaxis angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; tooth polishing appliances for use by dentists; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays; dental posts; dental instruments, namely, preparation dental instruments for mixing, dispensation and application of dental impression materials, bite checking materials; dental filling and bonding material contained in disposable applicators; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; buccal tubes; orthodontic rubber bands; wound suction apparatus; wound drainage apparatus; stethoscopes; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and display of heart sounds and other physiological acoustic signals; elastic bandages; orthopaedic splints; support bandages; padding for orthopedic casts; surgical sterile sheets; medical isolation gowns; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac, electrocardiograph, electroencephalograph and other types of patient monitoring; medical leads and connectors for use with medical electrodes; apparatus for cardiac defibrillation; shaped padding for supporting parts of the body [medical use]; trays for holding surgical instruments; thermo-electric compresses [surgery]; medical examination sheets; operating theatre sheets; thermometers for medical use; cold packs for medical purposes; chemically activated hot gel packs for medical use; surgical skin staplers; drainage tubes for medical purposes; wound drainage pouches; medical and surgical apparatus for tissue transplantation; electronic temperature monitors for medical use; blankets for medical purposes; medical apparatus for human and veterinary use for warming and cooling a patient's body temperature, comprising an air convective device, a hose, a gown or blanket, sensors, controls, and parts and fittings therefor; medical apparatus for intravenous administration of fluids, namely, fluid warmers; clothing, headgear and footwear for medical personnel and patients; medical device; injectors for medical purposes; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; pumps for medical purposes; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; surgical and wound treating equipment; medical apparatus and instruments; hypodermic needles; blood filters; hemodialysis apparatus; orthopedic apparatus and instruments for diagnostic and therapeutic use; veterinary apparatus and instruments; orthopedic cushions; padding for orthopedic casts; orthopedic cushions, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles, disposable orthopedic insoles; slings [support bandages]; finger splints; elastic bandages for joints; elastic bandages, namely, elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; surgical staple removers; surgical sponges; surgical staplers; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks for medical use; respirators for filtering air for medical purposes; sanitary masks; testing apparatus for medical purposes; **11** Water filtering apparatus; water purification units; autoclaves for medical use; membranes for the filtration of water; membranes for water filtering apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; industrial air purifiers; water purification and filtration apparatus; apparatus for the separation of liquids being water filtering apparatus; cartridge filtration units [water treatment equipment]; water conditioning units; reverse osmosis water purification units; flow restrictors for reverse osmosis water purification units; water purification units, non-electrical; air filters; air conditioning filters; water purifying units, for potable water for commercial or industrial use; water filtering units for domestic, commercial, and industrial use; water filters and components thereof, namely, filter cartridges for reduction of hard water, acid water, iron, lead, dirt, rust and sediment from drinking water supplies, from hot water systems, and from household appliances and humidifiers, for domestic and industrial use; water filters; air purifiers; **35** Medical transcription services; medical transcription services used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and delivery and retrieval of health related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; on-line retail store services featuring toiletries, therapeutic devices, surgical, medical, orthopedic, orthotic, chiropodial, podiatric, foot care related, and veterinary apparatus and instruments, wound care preparations and instruments, dressings, medicated products and preparations, and preparations for the care of the skin, feet and body; **41** Medical education services; educational services in the healthcare sector; providing continuing medical education courses; educational services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for

warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, seminars, workshops and learning tools to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; educational services, namely, training in the use of computer software for voice recognition and medical records; **42** software Consulting services; research and design services for medical purposes; software as a service (SAAS) for speech recognition, medical transcription, coding and reimbursement; software as a service (SAAS) for creating and maintaining medical, patient and healthcare records; environmental testing services to detect contaminants in water; computer software consultation; technical support services, namely, troubleshooting of computer software problems; computer software design; providing temporary use of on-line non-downloadable software that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites via a website; providing temporary use of on-line non-downloadable software that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organization via a website; providing temporary use of on-line non-downloadable software that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; providing temporary use of online non-downloadable software that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections via a website; providing temporary use of on-line non-downloadable software that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field via a website; providing temporary use of on-line, non-downloadable software for use in extracting patient clinic notes and medical records and translating language for assigning diagnostic and treatment codes, and for comparing accuracy with other coding inputs, for use primarily in medical reimbursement; providing temporary use of online non-downloadable software using speech recognition for use by medical healthcare professionals for the documentation of patient medical information and electronic health records; providing temporary use of online non-downloadable software for use by medical and healthcare professionals for charge capture, order entry and dictation of eprescription; providing temporary use of online non-downloadable software for artificial intelligence virtual assistance for use in the healthcare field in the clinical documentation of patient medical information in health information systems and in the management of clinical documentation improvement (CDI) processes; providing temporary use of non-downloadable software for use in extracting medical records and translating language for assigning codes primarily for medical reimbursement; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use as a teaching aid in training auscultation and cardiovascular diagnostics; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; providing temporary use of online non-downloadable software featuring continuing professional education and training seminars and courses for use by medical personnel in the field of auscultation and cardiovascular diagnostics; providing temporary use of non-downloadable software that identifies patterns of language in medical documents in order to organize, manipulate, and codify such documents; software as a service (SAAS), namely, services featuring software for providing medical, health, and wellness information accessible through mobile applications; software as a service (SAAS), namely, services featuring software for providing medical, health, and wellness information accessible through remote connectivity module equipped devices; software as a service (SAAS), namely, software to assist in ordering or purchasing products; **44** providing medical support in the monitoring of patients receiving medical treatments; medical consultancy services; dental consultations; healthcare consultancy services; medical services, namely, providing information related to advanced wound care, negative pressure wound therapy, and therapeutic support systems; remote monitoring of medical data for medical diagnosis and treatment; medical testing for diagnostic or treatment purposes; medical diagnostic services; healthcare services.
